CHECK YOUR VISION WITH THE AMSLER GRID

Putting patients first is at
the heart of everything we do.

THE

Genentech
A Member of the Roche Group

Step 1:

If you normally wear glasses, keep them on while looking at the grid

Step 2:

Keep the grid at a normal reading distance—about 14-16 inches away

Step 3:

Cover one eye to check the other eye's vision

Step 4:

Look directly at the dot in the center of the grid

Step 5:

Switch to the other eye and repeat

Call your Retina Specialist

if you notice missing corners, dark or blank spots, or blurry, distorted, or wavy lines.
